

Club4U

Club4U mobile application communicates with www.club4u.gr in order to display messages regarding the companies who have joined the Club4U Digital Marketing Environment. Therefore, wifi or mobile data connection is required. The use of mobile data may involve charges.

In order to receive notifications in your mobile device, you don't have to run the app. When a notification is received the app automatically displays its content.

Instructions

After installation, run the app and the following image is displayed.

News

Corporate news, newsletters, etc are displayed in list mode. Choosing each one, we see its content.

Products

Information about products & services, in list mode. Choosing each one, we see its content.

Events

Information about upcoming events, regarding Club4U' companies, artists, organisations, etc in list mode. Choosing each one, we see its content.

Settings/Companies

We can add / subtract companies and we can choose if we want to receive notifications or not from specific company.

You can see all companies belonging to Club4U, and you can set if you want to be informed or/and to receive notifications.

On the right picture: We've added 4 companies, but we've set not to receive notifications from Ckart.

We see the green envelope of Journeys of Hope. That means we receive notifications. If we press on Journeys of Hope, we can choose not to receive notifications and the envelope turns to red. But, all posts about JoH are delivered to Club4U and we can see them whenever we want.

Pressing «+», we see the following picture and we can add a new company, either by inserting its respective code or by reading its respective QR.
