The project...

- **Titel:** “Mens sana in corpore sano. Food, nutrition, eating habits, health and disease at European schools as (inter)cultural mirror”
- **Focus:** the goal of this project is to analyse and develop, from an intercultural perspective and using an interdisciplinary approach, youth-relevant questions and approaches to problems related to the topics of **diet, nutrition, eating habits and related eating disorders, sports/exercise and health** on a European level.
- **Project lifecycle: 2 Jahre**
- **Target group: Upper level students between 15 – 18**
- **Working group: 16 students**

Strategic school partnership

(Key Action 2)

MENS SANA IN CORPORE SANO
